#### UV-Vis Spectrophotometer Calibration Service

Periodic UV-VIS Spectrophotometer performance verification is an essential component of any quality assurance protocol. Proper performance validation is critical for documenting quality control and ensuring data integrity.

Lab Resources is pleased to offer Calibration Verification Service for all UV-VIS Spectrophotometer Instruments. Your spectrophotometer will be evaluated in the following areas of performance:

Instrument's Hardware Check

ROM Check

Baselines/Noise Check

Wavelength Accuracy

Photometric Accuracy

Spectral Resolution

Stray Light

Lab Resources supports on Spectrophotometer brand such as:

Cecil Instrument

Jasco

Shimadzu

Thermo

Others Hitachi

Perkin Elmer

Spectronic

Varian
